

Overview

SITRANS LVL200 is a standard vibrating level switch for material detection in liquid and slurry applications such as overflow, high, low, and demand applications, as well as pump protection. For use in SIL-2 applications.

Benefits

- Proven vibrating level switch technology for liquids
- Compact insertion length of 40 mm (1.57 inch) for confined space applications
- Fault monitoring for corrosion, loss of vibration or line break to the piezo drive
- Functional Safety (SIL 2). Device suitable for use in accordance with IEC 61508 and IEC 61511
- Hygienic process connections
- Suitable for API 2350
- Optional remote test signal conditioner

Application

SITRANS LVL200 is a level switch designed for industrial use in all areas of process technology and can be used with liquids and slurries. With a tuning fork insertion length of only 40 mm (1.57 inch), SITRANS LVL200 can be mounted in small pipes and applications with confined space. The LVL200 can be used to measure products with a minimum density of $> 0.5 \text{ g/cm}^3$ (0.018 lb/in^3). The LVL200 can be used in difficult conditions including turbulence, air bubbles, foam generation, buildup, or external vibration.

SITRANS LVL200 continuously monitors faults via frequency evaluation, providing early detection of strong corrosion or damage on the tuning fork, loss of vibration, or a line break to the piezo drive.

The tuning fork is piezoelectrically energized and vibrates at its mechanical resonance frequency of approximately 1 200 Hz. The vibration frequency changes when the tuning fork is covered by the medium. This change is detected by the integrated oscillator and converted into a switching command. The integrated electronics evaluate the level signal and output a switching signal, directly operating connected devices.

The optional signal conditioner provides a remote test feature to ensure continuous product reliability.

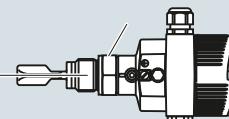

- Key Applications: for use in liquids and slurries, for level measurement, overfill, and dry run protection

Configuration

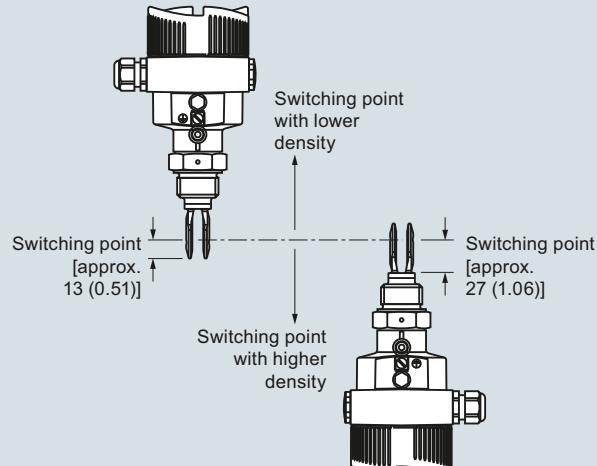

Horizontal mounting

Switching point (recommended mounting position, particularly for adhesive applications)

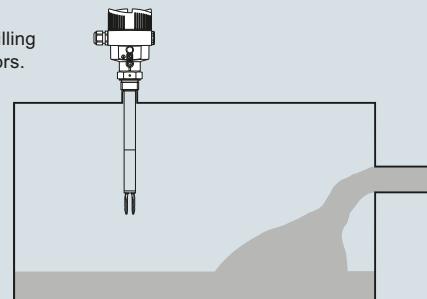

Marked with screwed version on top, with flange versions directed to the flange holes

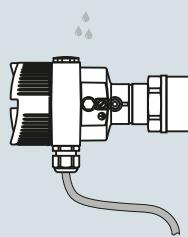

Vertical mounting

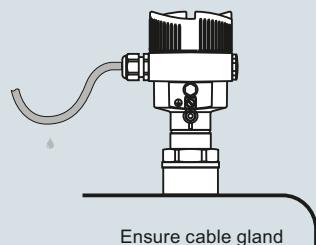

Mount away from filling openings or agitators.

Moisture protection

NOTE:
Welded socket for flush mount optional

Ensure cable gland faces downward to avoid water ingress.

SITRANS LVL200 installation, dimensions in mm (inch)

¹⁾ Available only with Adapter/Process temperature options 1, 3, 4, and 5.

²⁾ Available only with Housing/Cable entry option B.

³⁾ Available only with Adapter/Process temperature options 1, 2, and 4.

⁴⁾ Not available with Adapter/Process temperature options 2, 3, and 5.

⁵⁾ Not available with Adapter/Process temperature options 2, 4, and 5.

⁶⁾ Available only with Electronics options 4 and 6.

⁷⁾ Available only with rigid extension options less than 3 001 mm.

⁸⁾ Listed Certificates are not available with all configurations please contact factory for more information.

⁹⁾ Not available with Housing/Protection/Cable option V.

¹⁰⁾ Not available with PFA, ECTFE, and enamelled coating options.

¹¹⁾ Available only with some 316L extensions.

¹²⁾ Available only with relay electronic options and non-hazardous Approval options.

¹³⁾ Available only with Enamelled Process connection/Material options.

¹⁴⁾ Not available with Approval options C, E, G, H, L, N, V, and W.

¹⁵⁾ Not available with Approval options C, E, G, H, N, and V.

¹⁶⁾ Only available with Aluminum Housing/Protection/Cable options and certain glands.

¹⁷⁾ Not available with Stainless Steel Electropolish Housing/Protection/Cable options and certain glands.

¹⁸⁾ Not available with Plastic or Stainless Steel Electropolish Housing/Protection/Cable options and certain glands.

¹⁹⁾ Not available with Housing/Protection/Cable options D and V.

²⁰⁾ Not available with Housing/Protection/Cable options A, E, G, and V.

²¹⁾ Not available with some Housing/Protection/Cable gland options.

²²⁾ Not available with Housing/Protection/Cable options A, C, and V.

²³⁾ Not available with Plastic Housing/Protection/Cable options.

²⁴⁾ Available only with Electronic option 4.

²⁵⁾ Not available with FM approval options.

SITRANS LVL200 Vibrating point level switch, high temperature and pressure design

Detects level and material in liquids and slurries in extreme environments. Extension options to 3 m (9.84 ft).
