## KOBOLD companies worldwide:

ARGENTINA, AUSTRIA, BELGIUM, BULGARIA, CANADA, CHILE, CHINA, COLOMBIA, CZECHIA, DOMINICAN REPUBLIC, EGYPT, FRANCE, GERMANY, GREAT BRITAIN, HUNGARY, INDIA, INDONESIA, ITALY, MALAYSIA, MEXICO, NETHERLANDS, PERU, POLAND, ROMANIA, SINGAPORE, SOUTH KOREA, SPAIN, SWITZERLAND, TAIWAN, THAILAND, TUNISIA, TURKEY, USA, VIETNAM

## Description

The KOBOLD flow monitor FPS operates according to the proven paddle bellows principle. The flowing medium acts on the paddle thus actuating a microswitch. Switching point can be freely adjusted and the device mated to different nominal pipe sizes by means of the replaceable paddle in conjunction with the additional adjustment features. The electrical device section is separated hermetically from the process fluid by means of a bellows.
The special version of the flow monitor has been specially designed for minimum switching values. See table for switching values. The devices can be installed in any position.

Dimensions [mm]
FPS-2.../3...

Paddle (Model without T-piece)

## Technical Details

Brass design

Stainless steel design:
Max. medium temperature:
Max. ambient temperaturer:
Max. allowed pressure:

Max. pressure loss:
Inlet and outlet pipe section: 5 times nominal pipe size

## Electrical Details

Dust-proof microswitch as single-pole changeover contact
Switching voltage: max. 24-250 $\mathrm{V}_{\mathrm{AC}}$
Switching current:
Electr. connection:
Case:

Protection type:

MS 58, bellows of bronze, paddle of st. steel 1.4401 T-piece: steel zinc-plated stainless steel 1.4541, paddle of st. steel 1.4401 $-40 \ldots+120^{\circ} \mathrm{C}$ $-35 \ldots+65^{\circ} \mathrm{C}$ brass 11 bar, stainless steel 30 bar approx. 0.01 ... 0.03 bar 5 times nominal pipe size max. 8 A (inductive load) max. 15 A (resistive load) cable gland base part ABS, cover PC (transparent) IP65

## Electrical connection

RED-WHITE opens with reduction in flow RED-BLUE closes with reduction in flow

## Applications

- Monitoring cooling circuits, lubricant circuits

Dry running protection for pumps
Prevention of low water levels

Order Details (Example: FPS-1115 P)

[^0]
[^0]:    * For DN 25 a fitting is required in which the paddle can move freely.

    The values in brackets apply when using the supplied long paddle, which is shortened for service in NW 100 to NW 150 and which must be mounted with the three short paddles.
